currently living

Are you ready to transform your life?

Thank you for your interest in working with me in a one to one capacity.

Change can be scary! Ultimately it is inevitable if we are to grow, evolve and find a deeper sense of ourselves. Too often in life we settle for the familiar, somewhere between mediocre and struggle street simple because we know it so well. We fear and ultimately try to avoid the feelings associated with change... uncertainty, trepidation, grief and loss, lack of control and fear of the unknown (to name but a few).

We trade our happiness for mundane, our passion for perceived certainty and our dreams for controllable routine. We tell ourselves that we are happy, content, and living life, when the reality is that we are vastly disconnected, discontent and crying out for our world to be different. We all have dreams and unrealised potential of who we want to be and how we want to contribute to the world. The issue is for most people, these dreams become echoes within the corridors of time past.

My role as a mentor is to help you shape, imagine, bring to life and live these dreams. They are more than dreams, they are the calling of the soul. When we fail to answer this call, we begin to feel disconnected, discontent and out of alignment with life... we settle for mediocre, even when we know we were destined for more.

Imagine having a life coach/therapist who was not only nurturing and supportive of your dreams, goals and desires, but was also able to see into the recesses of your mind and emotions to see you're potential and indeed your destiny. Imagine someone who was able to help you clear the blockages and limitations.... Well that is what you get when I mentor you!

Designed specifically for you

The uniqueness of this transformational mentorship program is that it is designed around your individual needs, issues, goals and dreams. I work intuitively to address the needs of the body, mind and soul in order to reconnect you with your full potential and restore equilibrium in your life. You may choose to focus on a specific area such as life, spirituality or business or perhaps a combination. This program is ALL ABOUT YOU!

I have had the privilege of mentoring people who have achieved some incredible outcomes.... Including but not limited to, career transitions, publishing, and even those who have had the desire to awaken a spiritual gift and birth in into a successful business.

Investing in You.... Because you're worth it!

The three key blocks people usually encounter when they start thinking about investing in themselves is ***Worthiness, Money & Time!***

Worthiness and money usually go hand in hand. Who am I to spend this money on me when I could use it on x,y and z? This is a limited thinking pattern that keeps you stuck in the same energy somewhere between mediocre and struggle street. Investment in you actually impacts the 7.2 billion other people on the planet, not to mention the positive payoff for those close to you. The more investment in you, not only to you have more energy but a better quality of energy to share with those you love.

Money is energy, energy needs to flow otherwise it becomes stagnant. There is a saying that what flows, grows. This is especially true for money. Have you ever had the experience of trying desperately to save money only to have an unexpected expense drain your account? Money needs to move and if you don't freely move it, the universe will. So next time you think you can't invest in yourself because you don't have the money, remember that money will have to move anyway, so wouldn't investing in something that nurtures and grows you be a better option?

Time is finite and no amount of money can buy any of us more time. How much time have you already wasted with your dreams and potential locked inside you underneath layers of insecurity, self-doubt and fear?

About the Mentoring Program

There is a 3, 6 and 12 month mentorship program option to assist you to gain the maximum potential from your spiritual, personal and/or business development. When you invest in yourself in this manner the whole universe conspires to support you reaching your goals. Some people have described me as an antenna of connection to the universal resources... and I guess in some ways that it correct. I have been born with many gifts which I have spent over a decade refining, developing and strengthening. These gifts enable me to be able to experience and tap into the world at an entirely different level to most people. My passion is helping others realise their potential and unique gifts

Mentoring Investment

Mentoring is a serious commitment on both our parts and as such I am only prepared to work with those who are serious and ready to fast track their spiritual, personal and/or business development. My schedule and work commitments do not allow for a lot of these one to one opportunities, so I only offer them in instances where I know the individual is both ready and willing.

The investment in this exclusive one on one development is:

Term	Upfront	Instalments
12 weeks (3 months)	\$4500	2 X \$2500
26 weeks (6 months)	\$7000	5 X \$1500
52 weeks (12 months)	\$9500	5 X \$2000

Should you feel that this is the right path forward for you, then please email me at info@samanthagillards.com and we can arrange to have a chat to see if this is a good fit for us both.
